Turns out you can find STUDIO apartments no matter *where* you are in the world! Consisting of just one room, studios are ideal for simple living & deliver bang for your buck.

Parkville Management's STUDIO apartments are wildly popular. It's been said that those who call a studio home have a solutions-based mindset. Need a place for storage? Utilize wall space! Want to offer a comfy couch for guests but don't want to compromise on a good night's sleep? Find a cute daybed! Want to designate eating or living areas? Use pieces of art or antique rugs! Knowing your space & its benefits will cause you to re-think any major or day-to-day purchases.

Each of our lofts has its own unique character & layout complete with updated appliances.

Interested in a studio? Reach out to us & we'll let you know of any availability!
