BOILER HOUSE RENOVATIONS

BEFORE

the BOILER HOUSE was integral to heating 30 Arbor when the building functioned as a factory in the early 1900s.

Many of our plans are still in the works, but we envision a coffee bar & event space in the Boiler House, for starters!

AFTER

Thanks to everyone at 30 Arbor for your understanding as we continue to improve this gorgeous property & add in amenities!

*This past month saw the replacement of the roof.
As renovations continue, we will keep you all in the loop.*
